Section 1 – Introduction

The directory provides a list of UCLA Health Medicare Advantage Plan's network providers.

You will have to choose one of our network providers listed in this directory to be your **P**rimary **C**are **P**rovider (PCP). Generally, you must get your health care services from your PCP. A PCP is a is a physician or other qualified clinician who helps coordinate your care. You will receive your routine or basic care from your PCP. Basic care covers a range of prevention, wellness, and treatment of common illnesses. Your PCP will also coordinate the rest of the covered services you get as a member of our Plan. In order for you to see a specialist, you will usually need to get your PCP's approval first (this is called getting a "referral" to a specialist). In some cases, your PCP will need to get prior authorization (prior approval) from their medical group or UCLA Health Medicare Advantage Plan.

The network providers listed in this directory have agreed to provide you with your health care services. You may go to any of our network providers listed in this directory, however, some services may require a referral.

When you select a PCP, you are also selecting the medical group or the Independent Practice Association (IPA) to which the PCP belongs. You must generally receive your routine and specialty care through providers affiliated with that medical group or IPA, unless otherwise approved by your medical group, IPA or UCLA Health Medicare Advantage Plan.

If an out-of-network provider submits a bill directly to you, you should **not** pay the bill but send it to us and we will let you know how much you should pay. See Chapter 7 Section 2 of your Evidence of Coverage (EOC) for more information, including how to send us the bill.

You may obtain emergency services from the closest available provider, and you may obtain urgently needed services from any qualified provider when out of the plan's service area or when network providers are unavailable.

You must use network providers except in emergency or urgent care situations or for renal dialysis when temporarily outside our plan's service area. If you obtain routine care from out-of-network providers, neither Medicare nor UCLA Health Medicare Advantage Plan will be responsible for the costs.

Our network providers must offer you appointments for primary care and behavioral health services as follows:

- Urgently needed services or emergency - immediately;
- Services that are not emergency or urgently needed, but the enrollee requires medical attention - within 7 business days; and
- Routine and preventive care - within 30 business days.

What is the service area for UCLA Health Medicare Advantage Plan?
